1. EXECUTIVE SUMMARY

WestMetro Limited (WML) is pleased to submit this commercial proposal to RT Briscoe Nigeria Limited (RT Briscoe) for the implementation of the Federal Inland Revenue Service (FIRS) e-Invoicing (Merchant Buyer Solution - MBS) mandate. As a leading logistics and courier services provider, RT Briscoe' large-scale operations and high-value B2B transactions fall within the FIRS e-Invoicing compliance mandate (annual turnover ≥ ₦5 billion). With the November 1, 2025 compliance deadline only 12 days away, WML proposes a

dual-track approach designed to achieve immediate compliance while building a robust, permanent solution.

Our approach delivers: (1) **Immediate compliance by November 1st** through rapid deployment of Vendra (FREE during middleware development), and (2) **Native Microsoft Dynamics NAV 2017 integration** via custom middleware completed within 12 weeks. WML, as a FIRS-certified Access Point Provider (APP) and System Integrator, offers end-to-end compliance assurance with 24/7 support, automated invoice validation, and complete audit trail capabilities. Additionally, RT Briscoe receives FREE access to Vendra, our supplier onboarding platform, enabling seamless e-invoicing compliance across your entire supply chain for 6 months.

2. SCOPE OF WORK & UNDERSTANDING OF REQUIREMENTS

We understand RT Briscoe Nigeria's requirements as follows:

- **Urgent compliance by November 1, 2025:** Meet FIRS deadline without disruption to current operations.
- **Dual-track implementation:** Quick compliance via Vendra while building permanent Dynamics NAV 2017 integration.
- **Direct Integration:** Native connectivity between RT Briscoe's Microsoft Dynamics NAV 2017 and FIRS MBS platform.
- **Real-time validation:** Automatic invoice validation and submission to FIRS through secure APIs.
- **Centralized monitoring:** Dashboard for invoice transactions, error logs, FIRS acknowledgments, and webhook notifications.
- **2-way invoice handling:** Process outbound invoices (RT Briscoe → customers) and inbound invoices (suppliers → RT Briscoe).
- **Supply chain compliance:** FREE Vendra platform to onboard smaller suppliers (<₦5B turnover) for end-to-end compliance.
- **SLA-backed support:** Full technical support, reporting, and ongoing compliance management.
- **Training and documentation:** End-to-end user training, technical documentation, and UAT coordination with FIRS.

3. INTEGRATION OPTIONS

WML proposes a **Dual-Track Direct Integration** approach that guarantees November 1st compliance while building a permanent enterprise solution:

3.1 Track 1: Quick Compliance (Weeks 1-2)

- **Vendra Deployment:** Configure and deploy Vendra as interim FIRS-compliant invoice generation system (FREE during middleware development).
- **CSV Export Integration:** RT Briscoe exports invoices from Dynamics NAV 2017 as CSV (manual or automated via Power Automate).
- **AI Validation Frontend:** Web-based validation layer ensures data quality before submission to FIRS.
- **Result:** November 1st compliance achieved with zero Dynamics NAV 2017 disruption.

3.2 Track 2: Permanent Solution (Weeks 3-12)

- **Custom Middleware Development:** WML builds middleware for native Dynamics NAV 2017 integration (RT Briscoe provides cloud hosting infrastructure).
- **Direct API Integration:** Middleware extracts invoice data from Dynamics NAV 2017, transforms to FIRS UBL 3.0 JSON format, and transmits to Taxly.
- **Webhook Consumer:** Always-on endpoint receives asynchronous FIRS responses (IRN generation, acceptance/rejection).
- **Inbound Invoice Handler:** Processes supplier invoices via PEPPOL, stores in database, posts to Dynamics NAV 2017, sends email notifications.
- **Result:** Native Dynamics NAV 2017 integration operational by Week 12. Vendra decommissioned after successful cutover.

3.3 FREE Compliance Accelerators

- **Vendra:** FREE during middleware development (Weeks 1-12).
- **Vendra:** FREE for 6 months, unlimited supplier onboarding for end-to-end supply chain compliance.
- **Taxly (WML APP):** FREE for 12 months - secure gateway to FIRS via PEPPOL.

4. TECHNICAL APPROACH

The proposed solution adopts a layered architecture ensuring reliability, scalability, and compliance:

4.1 Phase 0: FIRS Registration (Pre-Engagement, 3-5 days)

- Register all RT Briscoe legal entities on FIRS e-invoice platform
- Select WestMetro Limited as Access Point Provider (APP)
- Receive Access Point credentials (API Key, Node ID per entity)
- Nominate IT Lead and Finance Contact for integration

4.2 Phase 1: Data Mapping & Quick Compliance (Weeks 1-2)

- Comprehensive data mapping workshop (4 hours): Map Dynamics NAV 2017 fields → FIRS UBL 3.0 schema
- Vendra installation and configuration
- CSV export process setup (manual or Power Automate)
- AI validation frontend deployment
- Integration testing (Vendra → Taxly Sandbox)
- Vendra deployment and supplier onboarding training
- **Go-Live: November 1st compliance achieved**

4.3 Phase 2: Middleware Development (Weeks 3-10)

- Architecture design and Dynamics NAV 2017 connector specifications
- Core development: Dynamics NAV 2017 connector, UBL 3.0 transformation engine, Taxly API integration
- Webhook consumer endpoint (async FIRS responses)
- Inbound invoice handler (PEPPOL receiver)
- Dashboard, monitoring interface, and email alert system
- Logging and immutable audit trail

4.4 Phase 3: UAT & Certification (Week 11)

- FIRS Sandbox testing with comprehensive test datasets
- B2B/B2G invoice flows (IRN generation, QR codes, digital signatures)
- B2C invoice reporting validation
- Webhook delivery and consumption testing
- Inbound invoice handling (PEPPOL)
- Production Readiness Certification issued by WML

4.5 Phase 4: Go-Live & Transition (Week 12)

- Cutover from Vendra to Middleware (weekend deployment)
- Native Dynamics NAV 2017 integration operational
- Real-time monitoring (first 48 hours intensive)
- Post-go-live support (90 days hyper-care)

5. IMPLEMENTATION PLAN & TIMELINE

The dual-track implementation is estimated to take approximately 12 weeks from project kickoff:

Phase	Duration	Timeline	Key Activities
Phase 0: FIRS Registration	3-5 days	Pre-Week 1	FIRS registration, APP selection, credentials
Phase 1: Quick Compliance	1 week	Weeks 0-2	Data mapping, Vendra, Nov 1st go-live
Phase 2: Middleware Dev	8 weeks	Weeks 3-10	Architecture, development, testing
Phase 3: UAT & Certification	1 week	Week 11	FIRS Sandbox, WML certification
Phase 4: Go-Live & Transition	1 week	Week 12	Cutover, Dynamics NAV 2017 live, hyper-care start

Post-Go-Live: 90 days of hyper-care support

Total Duration: 12 weeks (plus 90-day support)

6. SERVICE LEVEL AGREEMENT (SLA)

- **System Availability:** 99.9% uptime excluding scheduled maintenance.
- **Support Coverage:** 24/7 technical support and escalation management.
  - Critical issues: Response within 1 hour
  - Major issues: Response within 4 hours
  - Minor issues: Resolution within 24 hours

- **Performance:** Transaction processing under 3 seconds per invoice, 100% schema validation accuracy, scalable architecture.
- **Reporting:** Quarterly performance and compliance reports.
- **Incident Management:** Structured escalation and resolution protocols.

7. INDICATIVE COMMERCIALS

The proposed commercials for RT Briscoe Nigeria's e-Invoicing dual-track integration are as follows:

Dual-Track Integration Package:

- Phase 0 Project Consulting (PMO) Governance, risk/issue tracking, readiness assessments, and compliance oversight): ₦2,000,000
- Phase 1 Quick Compliance (Vendra Setup & Go-Live): ₦0 (FREE)
- Phases 2-4 Middleware Development (Dynamics NAV 2017 Integration): ₦3,500,000
- One-Time APP Setup (Taxly Gateway for 3 subsidiaries): ₦2,000,000

Total One-Time: ₦ 7,500,000.00

Optional Costs:

- Recurring Support & System Maintenance: ₦350,000/month (starts after 90-day hyper-care)

FREE Inclusions (Limited Time):

- Vendra (interim compliance solution): FREE for 6 months
- Vendra (supplier onboarding platform): FREE for 6 months, unlimited suppliers
- Taxly APP (FIRS gateway): FREE for 12 months

Payment Terms:

- 60% mobilization upon engagement
- 25% upon successful UAT completion (Week 11)
- 15% upon go-live handover (Week 12)
- Prices are VAT 7.5% exclusive

8. KEY ASSUMPTIONS & DEPENDENCIES

- Phase 0 FIRS registration must be completed before Phase 1 begins.
- RT Briscoe's Dynamics NAV 2017 environment is accessible for API integration (cloud or on-premise).
- RT Briscoe provides cloud hosting infrastructure for middleware deployment (Azure, AWS, or GCP).

- WML acts as System Integrator for middleware development.
- FIRS sandbox approvals and response times are outside WML's control and may affect timeline.
- Secure network connectivity (HTTPS outbound to Taxly) provided by RT Briscoe IT.
- RT Briscoe assigns IT Lead and Finance Contact for data mapping workshop, UAT, and training.
- RT Briscoe provides 20+ sample invoices (B2B, B2C, B2G) during Phase 1 for mapping validation.
- RT Briscoe provides comprehensive test datasets (minimum 50 B2B, 50 B2C, 20 B2G invoices) during Phase 3 UAT.
- WML handles APP communication, testing, and support coordination with FIRS.

9. DELIVERABLES

- Complete Dynamics NAV 2017 → FIRS data mapping specifications
- Vendra configured and operational for Nov 1st compliance
- AI validation frontend web interface
- Vendra supplier onboarding platform (6 months FREE)
- Custom middleware package with all modules (Dynamics NAV 2017 connector, transformation engine, Taxly integration, webhook consumer, inbound handler, dashboard, email alerts, audit logging)
- Full UAT completion and sign-off by RT Briscoe and FIRS
- Production Readiness Certification issued by WML
- Compliance dashboard and real-time monitoring interface
- Quarterly SLA reports (performance, uptime, compliance)
- Technical documentation (deployment guide, user manuals, API docs, operations guide)
- End-user training materials and sessions
- 90 days of hyper-care support post go-live

10. SECURITY & COMPLIANCE ASSURANCE

- All data transmissions encrypted with TLS 1.3 (middleware → Taxly → FIRS)
- Middleware hosted on RT Briscoe-provided infrastructure in Nigeria for data residency compliance
- Immutable audit logs with append-only database architecture (7+ years retention)
- AES-256 encryption for invoice data storage
- Role-Based Access Control (RBAC) with OAuth 2.0 authentication
- ISO 27001-aligned security controls
- SLA-backed availability: 99.9% uptime with disaster recovery and business continuity protocols
- NDPA (Nigeria Data Protection Act 2023) compliant data handling
- NITDA interoperability standards compliance

11. NEXT STEPS

- **THIS WEEK (Oct 30 – Nov 5th):** RT Briscoe to review and approve proposal. Execution of Letter of Engagement (LoE) and 60% mobilization payment.

- **Phase 0 (3-5 days):** Complete FIRS registration for all RT Briscoe legal entities. Select WML as APP.
- **Week 1:** Data mapping workshop. Infrastructure provisioning. Vendra installation.
- **Week 2:** Vendra testing, Vendra deployment, user training. Go-live by November 1st.
- **Weeks 3-12:** Middleware development, UAT, certification, and cutover to native Dynamics NAV 2017 integration.
- **Post-Week 12:** 90-day hyper-care support, transition to ongoing maintenance, and continuous compliance monitoring.

12. WHY WESTMETRO LIMITED?

- Accredited FIRS Access Point Provider (APP) with proven delivery experience
- Strong track record with Tier-1 clients in Manufacturing, Logistics, Hospitality, FMCG, Financial Services
- Proven ERP integration expertise (Oracle, Dynamics 365, SAP, Odoo, Vendra)
- Pioneer of ATRS, Nigeria's first fiscalization system (deployed 2012)
- Dual-track approach guarantees Nov 1st compliance with zero deadline risk
- FREE compliance accelerators (Vendra, Vendra, Taxly APP) reduce total cost of ownership
- End-to-end supply chain compliance via Vendra supplier onboarding
- 24/7 dedicated support, compliance monitoring, and continuous updates
- 99.5% SLA-backed uptime with structured incident management

13. CONCLUSION

This proposal reflects WML's commitment to supporting RT Briscoe Nigeria in achieving seamless e-Invoicing compliance with FIRS regulations. Our dual-track approach eliminates the November 1st deadline risk while delivering a robust, permanent enterprise solution. With FREE Vendra, Vendra supplier onboarding, and 12 months of Taxly APP service, RT Briscoe receives comprehensive compliance coverage at exceptional value. Our team remains available to provide clarifications and schedule the kickoff meeting this week.

We look forward to partnering with RT Briscoe Nigeria on this critical compliance initiative.
