WestMetro Bulk Upload – Data Mapping Questionnaire

Welcome to WestMetro Bulk Upload onboarding.

This short form helps us understand how your invoices are structured so we can configure Bulk Upload for FIRS e-Invoicing with minimal disruption to your existing processes.

Only the first section is mandatory. The later sections on tax types and non-sales / wildcard line items are optional and can be left blank if you prefer to discuss those details on a call.

We do not need technical details like column names or file layouts here – we will take those from the sample CSV/Excel files you share with us.

If you are unsure about any answer, it is fine to say "Not sure" – we will clarify during the data review session.

What happens next

Once you submit this form:
1. We will ask you to share sample CSV/Excel invoice exports for Bulk Upload.
2. Our team will run an initial data analysis to understand your structure.
3. We will prepare your personalised Data Mapping & Configuration document, including any tax and line-item handling rules.
4. We will review this with you on a short call and agree on next steps for going live.

You can also leave any questions or concerns in the free-text field above.
